

# Here are the benefits of the AAC blocks:

01

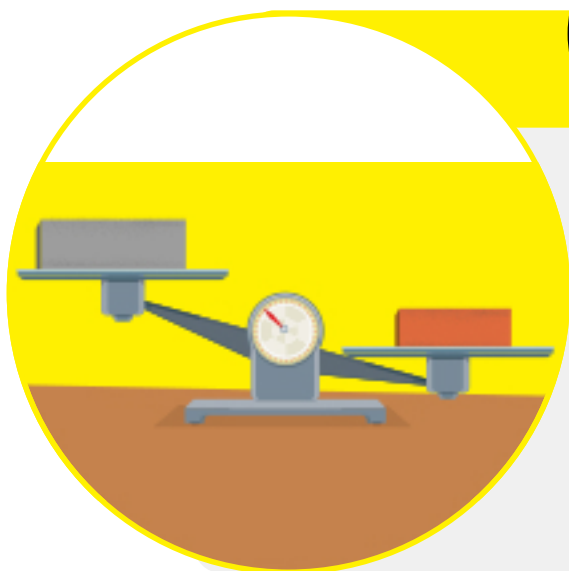

Eco-friendly:  
AAC blocks are not only economical, but also eco-friendly in construction.

02

Insulation:  
AAC blocks prevent the noise and heat coming in from outside. This makes your house peaceful and also cold in the hot season and hot in the cold season.

03

Light weight:  
AAC blocks have many small air bubbles which make them lighter and better than bricks.

04

Earthquake resistant:  
The effect of an earthquake is lesser on a building constructed with the AAC blocks and there is also lesser risk of spread of fire.
