You can have different types of finishes on the walls as per your requirements such as:
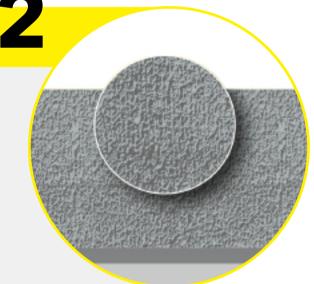

01

Cement plaster finish:
In this, a plaster is done on the walls with the mortar of cement, sand and water. This gives the walls some smooth and sandy finish.
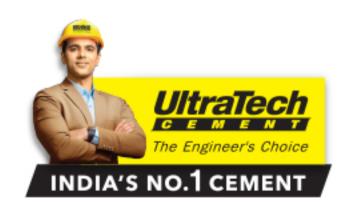

02

Cement textured finish:
If you want more decorative and modern look with the use of mortar mixture of cement, sand and water, you can select cement textured finish.

03

Plaster of Paris finish:
With the help of a POP, you can get a finishing with fine design on the walls and you can get a finish like a wooden panel.
