## Small yet vital jobs can build a big reputation!

Some jobs are small yet critical. They demand immediate action and do not permit the conventional methods of repair by getting all the individual material at the site. While executing, we are under tremendous pressure of assuring quality, maintaining cleanliness at site and doing all this quickly with a small team.

But despite our best effort, current methods and materials end up creating severe disruptions, delays and discontent, adversely impacting our reputation.

## Introducing **UltraTech ZIP**

An amazing concrete available in a ready-to-pour 12 litre buckets and bags. A solution that enables you to execute small yet vital jobs with great speed, assured quality and finesse, while deploying only a small team.

Delighting your customer and building an enduring reputation is now possible with **UltraTech ZIP**.

**Why settle for the ordinary, when you can build the extraordinary!**
