Auditor's Responsibilities for the Audit of the Statement

7. Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing, specified under section 143(10) of the Act, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Statement.
8. As part of an audit in accordance with the Standards on Auditing, specified under section 143(10) of the Act, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has in place an adequate internal financial controls with reference to financial statements and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;
 - Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Statement or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure, and content of the Statement, including the disclosures, and whether the Statement represents the underlying transactions and events in a manner that achieves fair presentation
9. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

- c. give a true and fair view in conformity with the recognition and measurement principles laid down in the applicable Indian Accounting Standards, and other accounting principles generally accepted in India, of consolidated net profit and other comprehensive income and other financial information of the Group for the year ended 31 March 2024.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Annual Financial Results section of our report. We are independent of the Group, its associates and its joint venture in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us, along with the consideration of reports of the one of the joint auditors of the parent and other auditors referred to in sub paragraph (a) and (b) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated annual financial results.

Emphasis of Matter

- a. We draw attention to Note 11 of the consolidated annual financial results which refers to the orders dated 31 August 2016 (Penalty of Rs. 1,616.83 crores) and 19 January 2017 (Penalty of Rs. 68.30 crores) of the Competition Commission of India ("CCI") against which the Company (including erstwhile UltraTech Nathdwara Cement Limited) had filed appeals. Upon the National Company Law Appellate Tribunal ("NCLAT") disallowing its appeals against the CCI order dated 31 August 2016, the Company has filed appeals before the Hon'ble Supreme Court of India, which has by its orders dated 5 October 2018, granted a stay against the NCLAT order. Consequently, the Company has deposited an amount of Rs. 161.68 crores equivalent to 10% of the penalty of Rs. 1,616.83 crores recorded as asset. The Company, backed by legal opinions, believes that it has good case in both the matters basis which no provision has been recognised in the books of account.

Our opinion is not modified in respect of these matters.

Management's and Board of Directors Responsibilities for the Consolidated Annual Financial Results

These consolidated annual financial results have been prepared on the basis of the consolidated annual financial statements.

compliance with Regulation 33 and Regulation 52(4) read with Regulation 63 of the Listing Regulations, as prescribed in Securities and Exchange Board of India operational circular SEBI/HO/DDHS/P/CIR/2021/613 dated 10 August 2021, as amended. The respective Management and Board of Directors of the companies included in the Group of its associates and joint venture are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of each company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated annual financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated annual financial results by the Management and the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated annual financial results, the respective Management and the Board of Directors of the companies included in the Group and of its associates and joint venture are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and the respective Board of Directors of its associates and joint venture is responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Annual Financial Results

Our objectives are to obtain reasonable assurance about whether the consolidated annual financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated annual financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated annual financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of financial statements on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the consolidated annual financial results made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated annual financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint venture to cease to continue as a going concern.

Independent Auditor's Report (Continued)

UltraTech Cement Limited

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Annual Financial Results section of our report. We are independent of the Company, in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act, and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us, along with the consideration of report of one of the joint auditors of the Company referred to in sub-paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the standalone annual financial results.

Emphasis of Matter

- a. We draw attention to Note 11 of the standalone annual financial results, which refers to the orders dated 31 August 2016 (Penalty of Rs. 1,616.83 crores) and 19 January 2017 (Penalty of Rs. 68.30 crores) of the Competition Commission of India ("CCI") against which the Company (including erstwhile UltraTech Nathdwara Cement Limited) had filed appeals. Our opinion is not modified in respect of this matter.

The Company's Management and the Board of Directors are responsible for the preparation and presentation of these standalone annual financial results that give a true and fair view of the net profit/ loss and other comprehensive income and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India and in compliance with Regulation 33 and Regulation 52(4) read with Regulation 63 of the Listing Regulations, as prescribed in Securities and Exchange Board of India operational circular SEBI/HO/DDHS/P/CIR/2021/615 dated 10 August 2021, as amended. The respective Management and Board of Directors of the Company/Trustees of the Trust are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company/Trust and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone annual financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone annual financial results, the respective Management and the Board of Directors/ Trustees are responsible for assessing the Company/Trust ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors/Trustees either intends to liquidate the Company/Trust or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors/Trustees are responsible for overseeing the financial reporting process of the Company/Trust.

Auditor's Responsibilities for the Audit of the Standalone Annual Financial Results

Our objectives are to obtain reasonable assurance about whether the standalone annual financial results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone annual financial results.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone annual financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion through a separate report on the complete set of financial statements on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone annual financial results made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone annual financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future

Independent Auditor's Report (Continued)

UltraTech Cement Limited

events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone annual financial results, including the disclosures, and whether the standalone annual financial results represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial statements of the Trust of the Company to express an opinion on the standalone annual financial results. For the Trust included in the standalone annual financial results, which have been audited by one of the joint auditors, such one of the joint auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described sub-paragraph (a) of the "Other Matters" paragraph in this audit report.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

- a. The standalone annual financial results include the audited financial statements of one Trust whose total assets (before consolidation adjustments) of Rs. 366.26 crores as at 31 March 2024, total revenue (before consolidation adjustments) of Rs. Nil crores and total net profit after tax (before consolidation adjustments) of Rs. 1.69 crores, and net cash inflows (before consolidation adjustments) of Rs 17.39 crores for the year ended on that date, as considered in the standalone annual financial results, which have been audited by one of the joint auditors of the Company, such joint auditors report on financial statements of this Trust have been furnished to us by the management.

Our opinion on the standalone annual financial results, in so far as it relates to the amounts and disclosures included in respect of this Trust, is based solely on the report of such joint auditor of the Company.

- a) there would not be any capital variation in the Companies till the proposed Scheme becomes effective, except issuance and/or conversion of employee stock options/units in normal course of business of the Companies. In case, either of the Companies restructure their share capital by way of share split/consolidation/issue of bonus shares before the proposed Scheme becomes effective, the issue of shares pursuant to Share Exchange Ratios recommended in this Report shall be adjusted accordingly to consider the effect of any such corporate actions.
- b) there are no unusual/ abnormal events in the Companies materially impacting their operating performance/ financials after 30 September 2023 till the Report date.

We have relied on the above while estimating the Share Exchange Ratios for the proposed Demerger.

The Non-Convertible Debentures ("NCDs") of UltraTech are listed on the National Stock Exchange of India and NCD's of KIL are listed on the Bombay Stock Exchange, India. As per the Draft Composite Scheme of Arrangement for the proposed Demerger, the NCD holders of the Demerged Company as on the Effective Date will be transferred to the Resulting Company on same terms, including the coupon rate, tenure, redemption price, quantum, and nature of security, etc. Further, the NCD holders of the Resulting Company as on the Effective Date will continue to hold NCDs of the Resulting Company, without any interruption, on same terms, including the coupon rate, tenure, redemption price, quantum, and nature of security, ISIN, etc. Considering this the Scheme will not have any adverse impact on the holders of the NCDs and a separate exchange ratio on NCDs is not required. We have considered the fair value of NCDs to arrive at the Share Exchange Ratios for the proposed Demerger.

This Report is subject to the scope, assumptions, qualifications, exclusions, limitations and disclaimers detailed hereinafter. As such, the Report is to be read in totality and not in parts and in conjunction with the relevant documents referred to therein.

Annexure 1A- Approach to Valuation - BSM

It is universally recognized that valuation is not an exact science and that estimating values necessarily involves selecting a method or approach that is suitable for the purpose.

For the purpose of arriving at valuation of the Valuation Subjects, we have considered the valuation base as 'Fair Value'. Our valuation, and this report, is based on the premise of 'going concern value'. Any change in the valuation base, or the premise could have significant impact on our valuation exercise, and therefore, this Report.

It may be noted that the Institute of Chartered Accountants of India (ICAI) on June 10, 2018, has issued the ICAI Valuation Standards ("IVS") effective for all the valuation reports issued on or after July 1, 2018. IVS are mandatory for a valuation done under the Companies Act, 2013, and recommendatory for valuation carried out under other statutes/ requirements. We have given due cognizance to the same in carrying out the valuation exercise.

IVS 301 on Business Valuations deals with valuation of a business or business ownership interest (i.e., it includes valuation of equity shares).

IVS 301 specifies that generally, the following three approaches are used for valuation of business/business ownership interest:

1. Market approach
2. Income approach
3. Cost approach

Each of the above approaches are discussed in the following paragraphs.

1. Market Approach

Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities. The common methodologies under the Market Approach are as under.

a) Market Price Method:

This method involves determining the market price of an entity based on its traded price on the stock exchange over a reasonable period of time.

Equity shares of UTCL and KIL are listed on NSE and BSE and are frequently traded.

We have considered the market price of the shares of the Companies based on higher of the volume weighted average price for ten days and ninety days up to the Valuation Date basis their traded price on NSE (being stock exchange with higher turnover).

In case of KIL, we have reduced the reflection of market price attributed to the Residual business to arrive at the reflection of Demerged Undertaking in the market price of KIL.

b) Comparable Companies Multiple Method ("CCM")

This method involves valuing the valuation subject based on market multiples of comparable companies.

Under Comparable Companies Multiple Method, we have computed the fair value based on operating profits, capacity and turnover of the Valuation Subjects. We have used the EV/EBITDA and EV/Capacity multiple under this Method. To arrive at an average value under CCM we have given equal weights to values arrived using EV/EBITDA and EV/ Capacity multiple.

c) Comparable Transaction Multiple Method (“CTM”)

This method involves valuing the valuation subject based on multiples of comparable transactions. We have used the EV/Capacity multiple of comparable transactions the cement sector to determine value under this approach for Demerged Undertaking. In case of UltraTech, we have not used CTM due to lack of adequate transactions of similar size.

2. Income Approach

Income approach is a valuation approach that converts maintainable future amounts (e.g., cash flows or income and expenses) to a single current (i.e., discounted, or capitalised) amount. An approach based on earnings is relevant in case of companies generating a steady stream of income. We have used this approach for valuation of the shares of UTCL and Demerged Undertaking.

- Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company that are available to the providers of the company's capital.

- Appropriate discount rate applied to cash flows to equity i.e., the cost of equity:

Discount rate, which is the opportunity cost of capital provided i.e. the rate of return the capital provider expects to earn on other investments of equivalent risk.

For the purpose of computing value under the DCF Method, we have relied on the projections provided by the Management. It may be noted that projections are the responsibility of the Management. We have, therefore, not performed any audit, due diligence of any prospective information used and therefore, do not express any opinion with regards to the same. However, we have reviewed and analysed the projections for their acceptability.

3. Cost Approach:

It is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost). IVS 301 on Business Valuations and IVS 103 on Valuation Approaches and Methods specify that common methodologies for Cost Approach are Replacement Cost Method and Reproduction Cost Method. These methods involve determining the value of the asset based on the cost that will have to be incurred to recreate/replicate the asset with substantially the same utility as that of the asset under valuation.

In case of the Demerged Undertaking, we have used the Replacement Cost Approach based on benchmarks of cost for setting up the capacity. In case of UltraTech, in our view, the replacement cost approach may not capture the intangible assets on account of its size and market position. Hence, we have not used this method to determine its value.

Fair Valuation:

We have arrived at the fair value of equity shares of the Valuation Subjects under Market Approach by averaging the value derived under Market Approach, Income Approach and Cost Approach, as applicable. The value under Market Approach is computed by averaging the values under Market Price, Comparable Companies Multiple Method and Comparable Transaction Multiple Method (as applicable).

Preference Shares

We note that the RPS1 and RPS2 of UltraTech proposed to be issued as consideration pursuant to Share Exchange Ratio 2 and Share Exchange Ratio 3.

We have derived fair value of 5% RPS and OCRPS based on Income Approach. Preference shares of KIL are not listed hence market approach would not be relevant. We have considered present value of redemption proceeds receivable on the redemption date proposed in the terms of preference shares. The discounting of stream of redemption proceeds is done considering the arm's length yield attached to preference shares with similar credit rating.

The value of RPS1 and RPS 2 proposed to be issued is considered at par based on the terms of the preference shares and credit rating of UltraTech. The coupon, being the market yield based on tenure and credit rating.

Share Exchange Ratio 1

The computation of fair equity share exchange ratio for Demerger of KIL into UltraTech by BSM is tabulated below:

Valuation Approach	UltraTech (A)		KIL(B)	
	Value per Share of UltraTech (INR)	Weight	Value per Share of KIL (INR)	Weight

¹As mentioned earlier, we have not considered it appropriate to determine the value of equity shares of UltraTech under Cost Approach would not capture the intangible assets on account of its size and market position.

Annex 1B - Approach to Valuation – PwC BCS

We have considered International Valuation Standards in carrying out our valuation analysis and delivering our valuation conclusion. There are several commonly used and accepted valuation approaches for determining the value of a business/ shares of a company, which have been considered in the present case, to the extent relevant and applicable:

1. Asset Approach - Net Asset Value method

The asset-based valuation technique is based on the value of the underlying net assets of the business, either on a book value basis or realizable value basis or replacement cost basis. This valuation approach is mainly used in cases where the firm is to be liquidated i.e., it does not meet the “going concern” criteria or in case where the assets base dominates earnings capability. A scheme of demerger would normally be proceeded with, on the assumption that the business would continue as going concern and an actual realization of the operating assets is not contemplated. In such a going concern scenario, the relative earning power is of importance to the basis of arrangement for Demerger, with the values arrived at on the net asset basis being of limited relevance.

2. Income Approach (Discounted Cash Flows (DCF) Method)

Under the DCF method the projected free cash flows to the firm are discounted at the weighted average cost of capital/ cost of equity. The sum of the discounted value of such free cash flows is the value of the business/ firm/ equity shareholders.

Using the DCF analysis involves determining the following:

Estimating future free cash flows:

Free cash flows are the cash flows expected to be generated by the company/ business that are available to all providers of the companies’/ business’ capital – both creditors and shareholders.

Appropriate discount rate to be applied to cash flows i.e., the cost of capital:

This discount rate, which is applied to the free cash flows, should reflect the opportunity cost to all the capital providers (namely shareholders and creditors), weighted by their relative contribution to the total capital of the company/ business. The opportunity cost to the capital provider equals the rate of return the capital provider expects to earn on other investments of equivalent risk.

3. Market Approach:

Under this approach, value of a company is assessed basis its market price (i.e., if its shares are quoted on a stock exchange) or basis multiples derived using comparable (i.e., similar) listed companies or transactions in similar companies. Following are the methods under Market Approach:

- **Market Price (MP) Method**

The market price of an equity share as quoted on a stock exchange is normally considered as the value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of the shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper indicator of the fair value of the share especially where the market values are fluctuating in a volatile capital market or when the shares are thinly traded. Further, in the proposed Demerger, where there is a question of evaluating the shares of one company against those of another, the volume of transactions and the number of shares available for trading on the stock exchange over a reasonable period would have to be of a comparable standard.

- **Comparable Companies' Multiple (CCM) Method**

Under this method, value of a business/ company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. The market price, as a ratio of the comparable company's attribute such as book net worth, profit after tax, capital employed, earnings, etc. is used to derive an appropriate multiple. This multiple is then applied to the attribute of the asset being valued to indicate the value of the subject asset. This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

- **Comparable Companies' Transaction Multiples (CTM) Method**

Under this method, value of the equity shares of a company is arrived at by using multiples derived from valuations of comparable transactions. This valuation is based on the principle that transactions taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

In the ultimate analysis, valuation will have to be tempered by the exercise of judicious discretion by the Valuer and judgment taking into account all the relevant factors. There will always be several factors, e.g., present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets, but which will strongly influence the worth of a business/ share. The determination of a fair value of equity shares/ business undertaking/ preference shares/ Share Exchange Ratios is not a precise science and the conclusions arrived at in many cases will, of necessity, be subjective and dependent on the exercise of individual judgement. This concept is also recognized in judicial decisions. There is, therefore, no indisputable single fair value estimates/ Share Exchange Ratios. The fair value estimates/ Share Exchange Ratios rendered in this Report only represent our recommendation(s) based upon information till the date of this Report, furnished by the Management (or its representatives) and other sources, others may place a different value. The final responsibility for the determination of the Share Exchange Ratios at which the proposed Demerger shall take place will be with the Board of Directors who should take into account other factors such as their own assessment of the proposed Scheme and input of other advisors.

Our choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of a similar nature and our reasonable judgment, in an independent and bona fide manner based on our previous experience of assignments of a similar nature. The valuation approaches/ methods used, and the values arrived at using such approaches/ methods by us have been tabled below.

The Share Exchange Ratio has been arrived at on the basis of a fair value estimates of equity shares and preference shares of UltraTech and cement business, 5% RPS and OCRPS of KIL on a relative basis, based on the various methodologies explained herein earlier and other factors considered relevant, having regard to information base, key underlying assumptions, and limitations. Though different values have been arrived at under each of the above methodologies, it is finally necessary to arrive at a single value for the proposed Demerger. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

In the current analysis, the arrangement involving proposed Demerger is proceeded with the assumption that on Demerger, the Resulting Company will continue as a going concern and an actual realization of the operating assets is not contemplated. In such a going concern scenario, the relative earning power, as reflected under the Income and Market approaches, is of greater importance to the basis of the Transaction, with the values arrived at on the net asset basis being of limited relevance. Hence, while we have calculated the values of the equity shares of UltraTech and Demerged Undertaking under the Asset Approach, we have considered it appropriate not to give any weightage to the same in arriving at the Share Exchange Ratios.

Given the nature of businesses of UltraTech and the Demerged Undertaking, and the fact that we have been provided with projected financials for UltraTech (on consolidated basis) and the Demerged Undertaking, we

Recommendation of Share Exchange Ratios for the proposed Demerger of the Demerged Undertaking from KIL to UltraTech

have considered it appropriate to apply the DCF Method under the Income Approach to arrive the fair value of the equity shares of UltraTech and the Demerged Undertaking. Within the DCF method, equity value per share for UltraTech and Demerged Undertaking has been computed as follows:

- Enterprise value of UltraTech and Demerged Undertaking has been computed using DCF method;
- To arrive at the total value available to the equity shareholders for both UltraTech and Demerged Undertaking, value arrived as above is adjusted, as appropriate, for debt, cash and cash equivalents and surplus assets as appearing in the balance sheet, contingent liabilities and other matters;
- The remaining value thus determined is then divided by fully diluted equity shares (considering estimated ESOP exercise, as appropriate), to arrive at the value per equity share.

Further, in case of Demerged Undertaking, the DCF Method was used to arrive at fair value estimates of 5% RPS and OCRPS, considering expected cashflows, existing coupon rates and estimated market yields. These fair value estimates were adjusted from enterprise value of the Demerged Undertaking. Further, the Scheme envisages issue of preference shares ('RPS₁ and RPS₂') of UltraTech to preference shareholders of KIL. The proposed terms of these preferences share is in line with the market yields and their face value can be considered representative of their fair value.

For our analysis under Market Approach, we have considered the Market Price Method to arrive at the fair value of the equity shares of UltraTech. For determining the market price, the volume weighted share price over an appropriate period has been considered in this case. Given nature of Transaction involving Demerger, Market Price Method was not used to determine value of Demerged Undertaking.

Considering the stage of operations of the Companies, industry within which it operates and their historical and current profitability status, we have considered EV/EBITDA and EV/Revenue multiple of various listed comparable companies. We have relied on publicly available information and certain databases such as CapIQ, etc. to arrive at the comparable company multiple.

Comparable Companies' Transaction Multiple (CTM) method has not been used due to lack of information in the public domain on comparable transactions of similar scale. Further, the transaction multiples may include acquirer specific considerations, synergy benefits, control premium and minority adjustments.

For our final analysis and recommendation, we have considered the values arrived under the Income Approach and Market Approach to arrive at the fair value estimates of equity shares and preference shares of UltraTech and cement business, 5% RPS and OCRPS of KIL for the purpose of the proposed Demerger.

We have considered appropriate weights to the values arrived at under the various valuation approaches/methodologies.

In view of the above, and on consideration of the relevant factors and circumstances as discussed and outlined hereinabove, the table below summarises our workings for valuation of equity shares and preference shares of UltraTech and cement business, 5% RPS and OCRPS of KIL, and the Share Exchange Ratios as derived by us.

DETAILS OF ONGOING ADJUDICATION & RECOVERY PROCEEDINGS, PROSECUTION INITIATED, AND ALL OTHER ENFORCEMENT ACTION TAKEN, IF ANY, AGAINST ULTRATECH CEMENT LIMITED (“THE COMPANY”), ITS PROMOTERS AND DIRECTORS

The Company and Directors:

1. An application was filed by Sanjay Mishra (“Complainant”) against the Company and the Managing Director before the Chief Judicial Magistrate, Bhadodi, Gyanpur (“CJM”) under section 156(3) of the Code of Criminal Procedure, 1973 (“CrPC”) for alleged fraud by the Company. The CJM passed an order dated 22 November 2022 (“Order”) and held that investigation by the police is not required and ordered registration of a complaint under section 200 of the CrPC. The complainant filed a revision application before the District and Sessions Court, Bhadohi for setting aside the Order. The matter is currently pending.
2. The relevant unit head of the Company received a notice from the court of district judge-1 and the additional sessions judge, Warora, Chandrapur district, Maharashtra (“ASJ Court”) in relation to criminal revision application (“Application”) filed by Vinod Khobragade and others (“Appellants”) against the relevant tehsildar, collector, collector (stamp), Directorate of Mining and Geology, officials at the state ministry, the Company and its officials, including the Chairman, who is also a promoter of the Company. The Application has been filed by the Appellants being aggrieved by order dated 30 September 2022 (“Order”), passed by the Judicial Magistrate, First Class, Warora (“Judicial Magistrate”). The Order was passed in relation to a criminal complaint (“Complaint”) which was filed against the Company and others under section 3 of the Scheduled Castes and the Scheduled Tribes (Prevention of Atrocities) Act, 1989 (“SC/ST Act”), read with sections 34, 120(B), 409, 420, 431, 468, 470 and 471 of the Indian Penal Code, 1860. The primary allegation was that a land was transferred illegally to a private party, Manikgarh Cement Works (a manufacturing unit of the Company) against the concerned Tehsildar, Collector (Stamp), Directorate of Mining and Geology and officials at the relevant state ministry. The Judicial Magistrate by means of the Order rejected the complaint on the ground that the alleged offences are required to be tried by special courts under section 14 of the SC/ST Act and directed the Appellants to approach the appropriate court. The matter is currently pending.
3. Jaiprakash Associate Limited (“JAL”) filed a claim on 23 October 2022 (“Claim”) before an arbitral tribunal (“Tribunal”) against the Company in relation to interpretation of a master implementation agreement (“Agreement”) executed between JAL and the Company along with a scheme of arrangement (“Scheme”) to settle a dispute in relation to the JP Super plant and mines situated in certain forest land. Out of the total sale consideration, the Company held back an amount of Rs.1,000 crores (“Holdback Amount”) which was to be paid after satisfaction of a condition subsequent requiring JAL to obtain approval from the National Green Tribunal and the National Wildlife Board (“Condition Subsequent”). Redeemable preference shares of Rs. 1,000 crores were issued by the Company to JAL for the Holdback Amount. JAL alleged non-completion of the condition subsequent within the prescribed timeline in accordance with the Agreement and claimed that damages were payable owing to the wrongful withholding of JP Super plant and aforesaid mines by the Company beyond the stipulated period and loss of reputation and goodwill of JAL. Therefore, JAL sought delivery of possession of JP Super Plant and Mines which was transferred to the Company by means of the Scheme to itself, or alternatively payment of redemption proceeds of the aforesaid redeemable preference shares. The Company filed its statement of defence along with counter claims on 14 December 2022. The Tribunal passed an order dated 3 October 2023, disposing of applications filed by JAL and the Company and issuing directions, subject to the final order passed by the Tribunal. The matter is currently pending.
4. The Company had acquired the Cement Business of Century Textiles & Industries Ltd. (“CTIL”) by way of Scheme of Arrangement in 2019. CTIL had earlier executed 4 mortgage deeds from 2013 to 2015 in the office of Joint Sub-Registrar Mumbai, Maharashtra, inter alia, in respect of properties situated in Raipur, Chhattisgarh for obtaining a loan facility from Banks. Subsequently, Joint Registrar Mumbai under section 65 of Registration Act, 1908 issued Memorandums dated 17 April 2015 to the District Registrar/Collector of Stamps, Raipur (“Collector”) intimating about execution of 4 mortgage deeds in Mumbai. The Collector, Raipur issued show cause notice under the Stamp Act for payment of deficit stamp duty payable in State of Chhattisgarh on the Mortgage Deeds and passed an order for payment of deficit Stamp Duty of Rs. 65.29 crores which was challenged by CTIL before Board of Revenue. The Revision filed was dismissed by Board of Revenue on 29 August 2017 affirming the order passed by the Collector and directed to initiate proceedings for recovering differential stamp duty. Aggrieved by the said order CTIL filed Writ Petition High Court, Bilaspur Chhattisgarh which were allowed vide common order dated 11.11.2019 (“impugned order”). The State of Chhattisgarh filed an SLP against the impugned order. After the acquisition of CTIL’s Cement Business, the Company filed its counter affidavit in the matter. The matter is currently pending before the Supreme Court. Since the high court has passed an order in the Company’s favour, as on date there is no demand.

The Company vide WPC 1655/2016 challenged the demand before the Court. and the Court granted stay on the demand vide order subject to the Company paying 25% the amount demanded by the Electricity Dept. The Company has paid Rs. 3.36 crores under protest. The matter is currently pending before the Court.

Later, the Government of Chhattisgarh also adopted the said notification. **DISCLOSURE CONTAINING CERTAIN INFORMATION FOR THE PUBLIC SHAREHOLDERS AS PER
THE REQUIREMENTS OF THE OBSERVATION LETTERS**

Disclosure as required by BSE Limited and the National Stock Exchange of India Limited vide Clause H of their respective observation letters dated 13th May, 2024 is provided as follows:

(i) Need and Rationale for Demerger of Cement Business of Kesoram Industries Limited (“KIL” or “Demerged Company”) into UltraTech Cement Limited (“UCL” or “Resulting Company”) along with the impact of the scheme on the shareholders of the Demerged Company and the Resulting Company and cost benefit analysis of the scheme.

(a) Need for the demerger and rationale of the Scheme:

The need for the demerger and rationale of the Scheme is as follows:

- i. expansion in markets where the Resulting Company has no physical presence;
- ii. creating value for shareholders by acquiring ready to use assets which shall create operational efficiencies and reduce time to markets vis-a-vis greenfield projects which are time consuming on account of acquisition of land and limestone mining leases;
- iii. good fit for serving existing markets and catering to additional cement volume requirements in new markets;
- iv. the transaction will provide the Resulting Company the opportunity to extend its footprint in the highly fragmented, competitive and fast growing Western and Southern markets in the country;
- v. it will help enhance the Resulting Company’s geographic reach in Southern markets; and
- vi. synergies in manufacture and distribution process and logistics alignment leading to economies of scale and creation of efficiency by reducing time to market and benefiting customers.

The detailed rationale of the Scheme is provided in the explanatory statement under paragraph 3.

(b) The impact of the Scheme on the shareholders of the Demerged Company and the Resulting Company is as under:

The impact of the Scheme on the shareholders of the Demerged Company and the Resulting Company, respectively, is disclosed in the report of the Board of Directors of the Demerged Company and the Resulting Company pursuant to Section 232(2)(c) of the Companies Act 2013, annexed as **Annexure IV and V** forming part of the Explanatory Statement.

(c) The cost benefit analysis of the Scheme is as under:

The Scheme is expected to provide an opportunity to improve the economic value for the companies involved in the Scheme and their stakeholders pursuant to consolidation of business. This is primarily on account of various cost and operational synergies which are expected to accrue to the Resulting Company on account of the Scheme. While the Scheme would lead to incurring of some costs towards its implementation, however, the benefits of the Scheme over a longer period would far outweigh such costs for the stakeholders of the Resulting Company.

(ii) Need and rationale for reduction of preference share capital of the Demerged Company and the impact of the scheme on the reserves of the Demerged Company.

(a) The proceeds of the preference shares of the Demerged Company are being utilised for its Cement Business, which is being demerged into the Resulting Company. All assets and liabilities of the Demerged Company’s Cement Business is being transferred to the Resulting Company under the Scheme. In consideration of the demerger, the Resulting Company will, inter alia, issue its redeemable preference shares against the entire value derived by the holders of the Demerged Company preference shares. In other words, the Demerged Company’s preference shares will be replaced with redeemable preference shares to be issued by the Resulting Company.

(b) In view of the transfer of the Cement Business of the Demerged Company and new redeemable preference shares of the Resulting Company being issued to the existing preference shareholders of the Demerged Company against the entire value derived by them in the Demerged Company, the entire preference share capital of the Demerged Company ought to be cancelled and reduced. Reduction and cancellation of the preference share capital of the Demerged Company forms an integral part of the Scheme.

Upon effectiveness of the Scheme, the Reserves of the Demerged Company will increase by Rs. 513.47 crores, based on its financial statement as on 31st March, 2024.

(iii) Pre and post scheme promoter shareholding of the Resulting Company along with rationale for addition of new Promoters.

Pre and post scheme promoter shareholding of the Resulting Company forms part of the Explanatory Statement.

The Demerged Company is part of the B. K. Birla Group of companies and the Resulting Company is part of the Aditya Birla Group of companies. Both the Groups have separate management teams and are run independently.

Some entities forming part of the Demerged Company promoter group, have been classified as promoter / promoter group in the post scheme shareholding pattern of the Resulting Company since such entities form part of the Aditya Birla Group. They will be issued shares of the Resulting Company and have hence been added under the promoter group category.

(iv) Rationale for arriving at terms of Preference Shares being issued by the Resulting Company to preference shareholders of the Demerged Company as consideration in the scheme and impact of the scheme on reserves of the Resulting Company.

The rationale for arriving at the terms of preference shares being issued by the Resulting Company to the preference shareholders of the Demerged Company are given below:

- Face Value: since the face value of the Demerged Company's existing preference shares is Rs.100 per share, to maintain uniformity the face value of preference shares to be issued by the Resulting Company is being maintained at Rs. 100.
- Coupon rate: based on coupon rate to be paid by the Resulting Company if it issues preference shares.
- Tenure: based on offering early return of principal amount to the preference shareholders.
- Redemption amount: Is inclusive of 7.3% p.a. yield for 3 months from the date of allotment, including the face value of Rs. 100/- which comes to Rs. 101.825.

There will be no impact on the reserves of the Resulting Company because of the issuance of the preference shares.

(v) Reason for showing promoters of the Demerged Company in public category of the Resulting Company.

As mentioned in point (iii) above, the Demerged Company is part of the B. K. Birla Group of companies and the Resulting Company is part of the Aditya Birla Group of companies. Both the Groups have separate management teams and are being run independently.

Some entities forming part of the promoter / promoter group of the Demerged Company have been classified as public shareholders in the post-scheme shareholding pattern of the Resulting Company, since such entities form part of the B. K. Birla Group.

(vi) Value of assets and liabilities of the Demerged Company that are being transferred to the Resulting Company and post-merger balance sheet of the Resulting Company.
